2WD MOD BUGGY TQ & WIN
 2014 **PRO-LINE**
CACTUS CLASSIC

Dakotah Phend

"The Pro-Line Tires on all my vehicles were awesome. The new VTR Suburbs gave me more stability and better wear and helped me TQ and win Mod Buggy!"
 - Pro-Line Driver Dakotah Phend at the 2014 Cactus Classic in Scottsdale, AZ

Why Choose 2.4" VTR?

Pro-Line is no stranger to the benefits gained by pushing the limits of tire mounting. Pro-Line first caught the world's attention by introducing VTR tires and wheels to 1:8 Truck, revolutionizing the class with dominating performance. Pro-Line's new 1:10 VTR tires and wheels introduce the horizontal tire mounting style to the precision environment of the 1:10 racing scene, resulting in the lightest tire/wheel package ever produced. The tire mounting surface has been increased from 2.2" to 2.4" giving the tire a lower profile sidewall and ultimately more traction. Test drivers immediately noticed the improved agility and traction that the VTR tires provide.
