Transform your Short Course Truck into a fire-breathing, road-crushing 1970's muscle car with the all-new Pro-Line Desert Eagle Body!

Staggered Setup: To get the aggressive, jacked-up look, use 2.2"/3.0" Short Course wheels on the front and 2.8" wheels on the rear following these guidelines:

2.2"/3.0" Front- You will need to have ProTrac™ arms (or arms that are 103mm in length) and pair with Slash® Rear Wheels (not ProTrac™) to increase the front track width of your truck.

2.8" Rear – Use Electric Stampede®/Rustler® Rear wheels (shown with Super Swamper pre-mounts) to increase the track width of your truck. Add in any of our 2.8" Monster tires, the gnarlier the better.

THE FUTURE BELONGS TO R/C
